

Ecolite LED heliport lighting systems are designed to provide effective visibility to heliports for the pilot at night and during poor visibility according to ICAO Annex 14 regulation.

## APPROACH LIGHT

This product is white steady burn light, which is used in the heliport for approach direction use. It can be used to indicate the optimal approach direction for the pilot at night. The approach system will comprise omni directional flashing white light fittings. They are normally 5 approach lights for each preferred direction of approach extending in a line with 4.5m spacing.

### ORDERING CODE

**HL-AL-[Colour]-[Voltage]**

Voltage:  
AC = 85–264Vac  
DC = 18–36Vdc

Colour:  
W = White

### TECHNICAL SPECIFICATIONS

Light intensity	100 cd
Light source	LED, steady burning
Lifetime	100,000 hours
Power consumption	≤ 5W
Emitting colour	White
Operating temperature	-40° C to +60° C
Surge protection	Built in
Standards compliance	ICAO Annex 14 Volume II

### DIMENSIONS

Overall dimension (mm)	Ø 165 x 260 (H)
Installation dimension (mm)	Ø 145 x M10
Weight	1.8 kg
