

Ecolite LED heliport lighting systems are designed to provide effective visibility to heliports for the pilot at night and during poor visibility according to ICAO Annex 14 regulation.

HELIPORT BEACON LIGHT 3 COLOUR

This product is used in heliport or nearby area to shine intermittently, shortly and Omni directionally with flash alternately white light in order to guide the pilot to locate the site. It should be mounted at the highest point anywhere on the site with 360° visibility.

The 3 colours beacon light is suitable to use at hospital and or emergency services heliport.

ORDERING CODE

HL-BL-3C-[Voltage]

Voltage:
AC120 = 120Vac
AC = 180-264Vac
DC = 22-28Vdc

TECHNICAL SPECIFICATIONS

Light intensity	2,500 cd
Light source	LED, flashing
Lifetime	100,000 hours
Power consumption	≤ 30W
Emitting colour	White, Green & Yellow
Protection index	IP65
Operating temperature	-40° C to +60° C
Surge protection	Built in
Standards compliance	ICAO Annex 14 Volume I & II

DIMENSIONS

Overall dimension (mm)	Ø 255 x 205 (H)
Installation dimension (mm)	Ø 234 x M8
Weight	7 Kg
