

Ecolite LED heliport lighting systems are designed to provide effective visibility to heliports for the pilot at night and during poor visibility according to ICAO Annex 14 regulation.

## HELIPORT BEACON LIGHT

This product is used in heliport or nearby area to shine intermittently, shortly and Omni directionally with flash alternately white light in order to guide the pilot to locate the site. It should be mounted at the highest point anywhere on the site with 360° visibility.

### ORDERING CODE

**HL-BL-[Colour]-[Voltage]**

Voltage:  
AC120 = 120Vac  
AC = 180-264Vac  
DC48 = 22-28Vdc

Colour:  
W = White

### TECHNICAL SPECIFICATIONS

Light intensity	2,500 cd
Light source	LED, steady burning
Lifetime	100,000 hours
Power consumption	≤ 20W
Flash frequency	4 times / 2 sec
Emitting colour	White
Protection index	IP65
Operating temperature	-40° C to +60° C
Surge protection	Built in
Standards compliance	ICAO Annex 14 Volume I & II

### DIMENSIONS

Overall dimension (mm)	Ø 255 x 210 (H)
Installation dimension (mm)	Ø 234 x M8
Weight	3.8 Kg
